SUMMER SONG

by Henry David Thoreau

*Life is a summer's day,
When as it were for aye
We sport and play.*

*Anon the night comes on,
The ploughman's work is done,
And day is gone.*

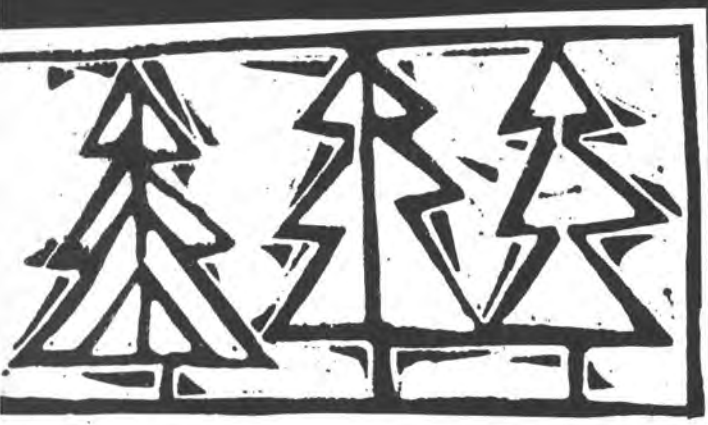

*We read in this one page
Both Youth, Manhood, and Age
That hoary sage.*

*The morning is our prime
That laughs to scorn old Time,
And knows no crime.*

*The noon comes on apace,
And then with swelt'ring face
We run our race.*

*When eve comes stealing o'er
We ponder at our door
On days of yore.*

*Let's make the most of morn,
Ere . . . it is gone.*

Dedicated

To

INDIVIDUALISM

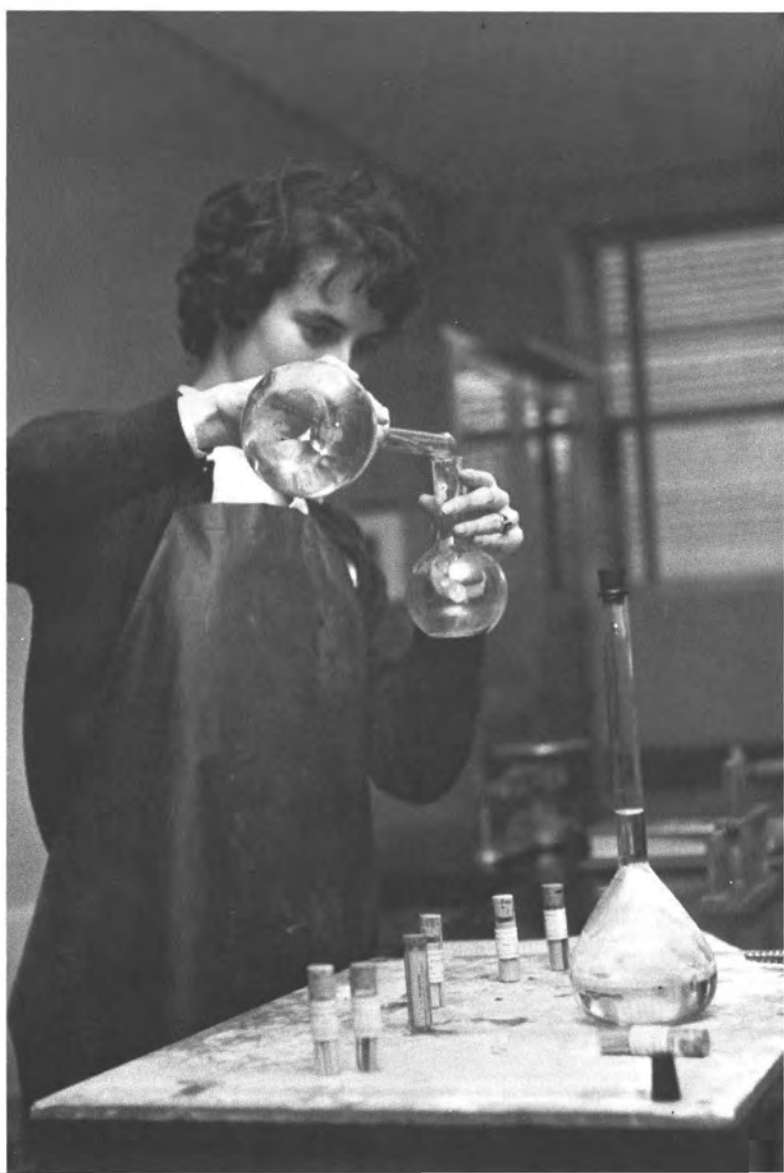

Individualism, the spirit of freedom, led Thoreau to abandon the trivial in his existence and search for the core and meaning of life. This basic desire to be independent was an integral part of Thoreau, as in fact it has been of our country and our countrymen. The right to be unique: our patriots fought for it; our thinkers express it; our inventors build upon it; our government protects it. Individualism is a part of the American dream, part of our heritage. It is important to us at Pittsford. Originality and leadership serve our school as creativity and curiosity illumine our education. In group participation and in individual thought we can begin to break away from blind acceptance. We are determining the people we will be. Our personalities are shaped by our regard for the right to be different . . . to be ourselves. Pittsford, in turn, is shaped by us.

... PERSPECTIVE

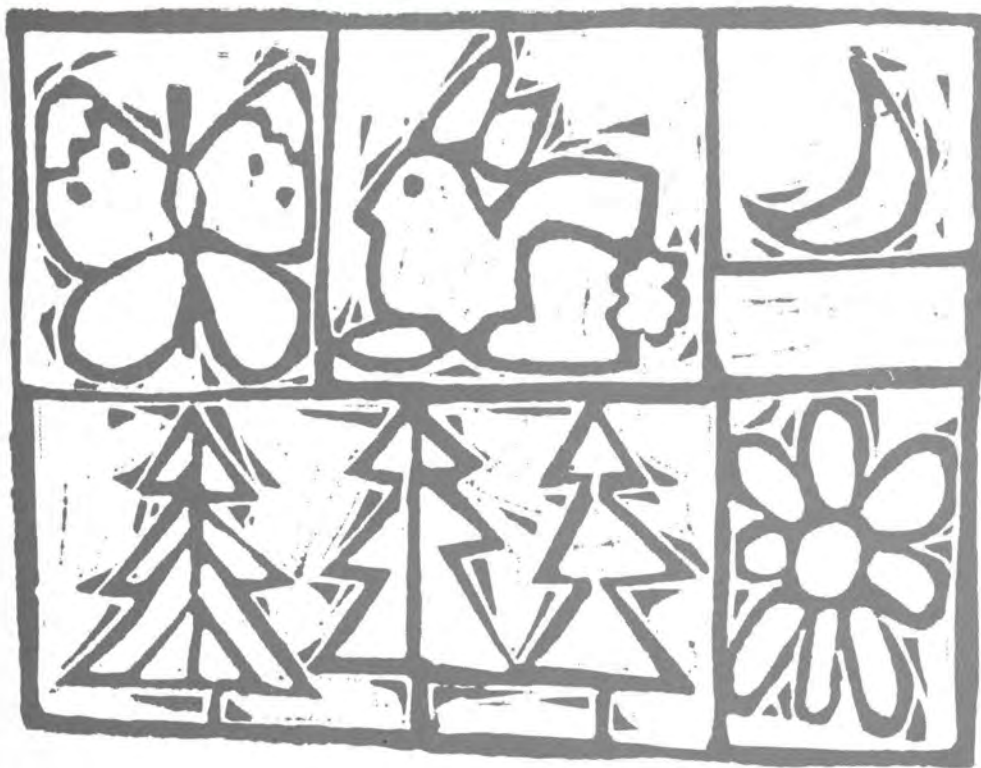

administration
faculty

Near side of table: Mr. Harry Lusk, Mr. Royal Tobey, Mrs. Orson Britton; *Far side of table:* Mr. Morris Gaskin, Clerk; Mr. Gorham Parks, Vice-President; Mr. Lyman Welch, Mrs. Wyatt Brummitt, Mr. John Fox, President.

BOARD OF EDUCATION

The members of the Board of Education are elected officials who represent the community at large. They are responsible for establishing the policy which directs our school system.

We, as a class, are deeply indebted to these dedicated people for their selfless efforts on our behalf. We have seen the results of their endeavors in buildings, supplies, the instructional program, and the calibre of the school employees.

During the current year, much of their time has been spent on the swimming pool and junior high school projects and on a new newsletter to the district residents.

Dear Class of 1963:

Please accept the congratulations of the entire faculty on the occasion of your graduation from high school. All members of the staff are pleased that they had the opportunity to contribute to your education. Your individual accomplishments have given us many opportunities to swell with pride.

Our school enjoys an excellent reputation in the area and throughout the state. Your high standards of achievement have been contributing factors. Such high standards are sometimes taught, but more frequently caught. It is to your credit that you have caught from your teachers their enthusiasm for quality in learning. The fine example set by the members of the class of 1963 will certainly be caught in the future by many Pittsford students.

Regardless of your choices for future endeavor, we hope you will pursue them with the same high standards of behavior and performance in mind. Such noble aims will insure a high degree of personal success.

Your school and community will continue to be interested in your progress. Come back often.

Herbert C. Bettinger
District Principal

ARNOLD T. CARLSON
High School Principal

Dear Class of 1963:

We are both pleased and impressed with your accomplishments. It is interesting to note that your high school career has taken place during years of tension and crisis on the international scene, and yet you have been able to set goals and make admirable progress in your own individual lives. In addition, pressures in the academic world determined that you face intense competitive influences, particularly in preparing and planning for post-high school experiences. This too, you seem to take in stride.

If, as individuals, you retain the enthusiasm and determination that has been evidenced by the Class of 1963, you most certainly will be contributors to improving and stabilizing our world society in future years.

Thank you for your willingness to be a vigorous and vital part of our high school life. It is our hope that your many achievements will be a guiding light for those that follow you.

Most sincerely,
Arnold T. Carlson

TEENAGE DIPLOMATS

WARREN LYONS, *A.F.S. Argentina*
SCOTT SEARLE, *A.F.S. Denmark*

Bringing a world of peace through friendship and understanding is one of the goals of the American Field Service. Under the motto, "Walk together, talk together," thousands of teen-agers each year are sent to different countries to learn new customs and to broaden their own way of thinking. By making lasting friendships in other lands, these "A.F.S.'ers" created a personal, warm understanding between countries in a world wrought with war, ignorance, and greed. As "A.F.S.'ers," we would like to sincerely thank Pittsford High School, the American Field Service, and the peoples of Denmark and Argentina for the opportunity of being a part of this essential program. We hope there will be many others in the future who attempt to reach our goal.

How wonderful it is to be accepted by you, people of Pittsford High School, in the warm and nice way that I was.

Yesterday, I was arriving here, with an enormous curiosity about the new life, which would be mine for one year. Now, I feel as if I belong to this place, being part of the community and of the student body.

I thank you all, teachers and students, who have helped me through this year, making me integrate completely into this nice place.

To leave is always sad, especially when one has to leave behind such a dear combination of people and experiences. But, I also thank the American Field Service which made it possible for me to have all these wonderful memories which will be always present in my future life.

Whenever you think of going to Brazil, remember there is someone who will be truly happy to see you again and to help you in whatever I can.

Rochester is sometimes referred to as "the city that has everything." In business, industry and the professions, this is especially true. No matter what kind of a career appeals to you, there is an excellent chance that you can begin it right here. And the beginning is half the battle won!

It goes without saying that the first step is your formal education — as much as you can get. Employers look for this first. The next thing they look for is "brightness." And one key to "brightness" is how much you actually know about the kind of work you're after. This is something you don't inherit from anybody. It is information you gather in advance for yourself — from parents, teachers, counselors, and friends. Most important — employers themselves are always ready to explain their standards and requirements.

Your idea of the best career for your particular talents may change, as you acquire more and more information about different fields of work. But when you decide what you want to do, some employer in the Rochester area will really want you — because by analyzing yourself, you have made yourself valuable.
